

WHAT IS THE CENTRE FOR EMERGING ARTISTS & DESIGNERS?

We are the **Career Development** office and the **Experiential Learning Program**, supporting the early-career advancement of all OCAD U students and recent alumni.

STUDENT TESTIMONIALS

“It’s really beneficial to take an Experiential Learning Placement course because of how personalized it is to your practice and who you are. The Coordinator sits down with you and looks through your portfolio, talks about your goals and helps you with your resumé. Then they can recommend to you – or match you with – an organization or studio or gallery that suits the type of learning and working style that you’re aiming for.”

— **Laura Rojas, BFA 2018 (Publications Specialization)**

Junior Designer at Bruce Mau Design

“Through the Centre for Emerging Artists & Designers (CEAD), I had the opportunity to participate in some of my first paid design projects with real-world clients. I was also able to meet a ton of local artists and designers during events like the Design Career Fair, the CEAD’s professional dinner series and different studio visits. And some of the connections I’d made eventually became freelance clients!”

— **Nicole Tang, BDes 2016 (Illustration)**

Visual Designer at PriceMetrix – Part of McKinsey & Company

“The CEAD helped prepare me to land a job as an assistant public artist with The STEPS Initiative, where I worked to produce a huge, 23-storey mural by one of my favourite international artists, Okuda. I also did graphic design work, community outreach, worked with kids, event planning and more. This job fulfills all of my passions and I am so happy that I had this opportunity. I put a lot of work into getting this role, and this kind of paid experience in the art world gives me confidence when it comes to future employment in the field.”
