

2007-08 Multi-Year Accountability Agreement Report-Back for: OCAD

As noted in the Multi-Year Accountability Agreement for Universities for 2006-07 to 2008-09 (MYAA), the government appreciates that implementing this and future agreements will be part of an evolutionary process which will incorporate maturing consensus on how to best measure and indicate access and quality. This will require a strong collaborative partnership between institutions and the Ministry of Training, Colleges and Universities.

This Multi-Year Accountability Agreement Report-Back Template has been designed to assist with the ministry's continuing efforts to measure the participation of students from under-represented groups, and as outlined in Appendix B (the Multi-Year Action Plan) of the MYAA, update the planned net new hires table, and the strategies and programs that will be used by your institution to participate in the Student Access Guarantee initiative.

Pursuant to the MYAA, the release of the full amount of your 2008-09 Accessibility to Higher Quality Education Fund¹ will be conditional on your institution confirming that it is on track for meeting its commitments, or the approval of an improvement plan by the ministry. The ministry will also use the completed Multi-Year Accountability Report-Back Template to review the progress made on the commitments outlined in your Multi-Year Action Plan. Based on this review, you may be required to submit an improvement plan to the ministry, developed in consultation with faculty, staff and students.

The information contained in this report-back template will also be used to inform the development of best practices and the creation of measures of system-wide results. These measures may be incorporated in revised requirements in future years to demonstrate system-wide improvements.

A. ACCESS**Increased Participation of Under-Represented Students — Measurement**

To continue assisting with our efforts to develop a system measure that will track the participation of students from under-represented groups (Aboriginal, First Generation, Students with Disabilities) the ministry is again seeking information with respect to the number of students who are self-identifying as under-represented pursuant to the methodologies currently in place to measure these students at your institution. Please refer to the measurement methodologies outlined in your approved Multi-Year Action Plan to track these students, and provide the total number of students who have self-identified as a member of each of these groups. The ministry recognizes that these measurement methodologies may require students to self-identify, which may result in under-reporting.

Individual students may belong to more than one group. In the cells counting respondents for each under-represented group, do not adjust for this potential double-counting. To the extent that you are able to do so, eliminate any double-counting in the column, "Total Number Self-Identifying as Member of Under-represented Group".

¹ Excluding your Per Student Funding portion of this fund.

Measurement Methodology (including description)	Student Groups in Your Student Population			Total Number Self-Identifying as Member of Under-represented Group	Total Number of Students Surveyed, if applicable

	#	#	#

MYAA Action Plan – 2008-09 Revision: Student Access Guarantee

Pursuant to Section 2.1 of the Multi-Year Agreements, your institution will participate in the Student Access Guarantee (including the new Access Window which allows Ontario students to identify costs and sources of financial aid). The detailed requirements for participation in the student access guarantee are outlined in the 2008-09 Student Access Guarantee Guidelines. Please complete the following template to update the strategies and programs that your institution will use in 2008-09 to participate in the Student Access Guarantee initiative.

<p>Describe how your institution will meet students' tuition/book shortfalls. As part of your description identify whether aid towards tuition/book shortfalls will be:</p> <p>a) Provided to those students who apply for institutional financial aid; or</p> <p>b) Automatically issued to students based on their OSAP information</p>	<p>b) In 2008-2009, the majority of bursary assistance available through TSA funding will be automatically issued to students on the basis of OSAP information. Some TSA funds will be reserved for emergency, appeal and special consideration cases, as well as for an institutional work-study plan. Students will be able to apply for some institutional aid programs, like OTSS or the Ontario First Generation Bursary Program.</p>
<p>If your answer to the above question was 'a,' please identify what specific internet portal(s) or program(s) students at your institution apply through to be considered for tuition/book assistance provided as part of your participation in the student access guarantee.</p> <p>Identify any applicable deadlines.</p>	<p>Does not apply; aid will be provided automatically to students based on their OSAP information.</p>
<p>Identify whether your institution plans to provide loan assistance in values greater than \$1,000 to meet tuition/book shortfalls of students in any of your second entry programs. If so:</p> <p>a) Identify the programs by name and by OSAP cost code;</p> <p>b) Describe how you determine how much loan aid to provide</p>	<p>Does not apply; OCAD does not have any second entry programs.</p>
<p>Describe other financial support programs and strategies that your institution will use to assist university students facing financial barriers to access, including identification of programs that provide case-by-case flexibility to respond to emergency situations that arise for students.</p>	<p>Bursary assistance through the tuition set aside funds and institutional aid programs is the primary method for addressing financial need. In addition, OCAD uses part of the TSA funds to create an institutional work study program. OCAD has both emergency bursary and short-term loans programs which are considered on a weekly basis to respond to immediate/crisis needs of students.</p>
<p>Briefly describe your review process for students who dispute the amount of institutional student financial assistance that is provided as part of the Student Access Guarantee.</p>	<p>Students with questions about the amount of assistance they have received are encouraged to contact the Financial Aid & Awards office to review their entitlement. If new information becomes available which was not factored into the original decision, the amount may be adjusted. Some of the TSA funds are reserved for appeal or special consideration requests.</p>

1 st to 2 nd Year	87 - 89%	87%	Achieved.
2 nd to 3 rd Year	88 - 91%	87%	Close to proposed range.
3 rd to 4 th Year	88 - 91%	87%	Close to proposed range.

If you would like to provide any other comments, please do so in the following space:

Using the CSRDE method, which tracks the progress of first-time, full-time students through their studies, OCAD exceeded the system average in 1st to 2nd year retention in the last six CSRDE reports and had the second highest retention rate among participating Canadian institutions in the most current report. In 2nd to 3rd year retention OCAD's results are consistent with the Ontario system average.

The upper-year results above are affected by the high market demand for OCAD-trained students, who often reduce their course load to accept part-time opportunities.
