## AUDITORS' REPORT

---

To the Board of Governors of  
**Ontario College of Art & Design**

We have audited the financial statements of the **Ontario College of Art & Design** [the "University"] as at and for the year ended May 31, 2008 consisting of the following:

Balance sheet  
Statement of operations and changes in unrestricted net assets  
Statement of changes in net assets  
Statement of cash flows

These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the University as at May 31, 2008 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

**NOTES TO FINANCIAL STATEMENTS**

---

May 31, 2008

**1. PURPOSE OF THE ORGANIZATION**

The Ontario College of Art & Design [the "University"] commenced operations in 1876 and was continued under the Ontario College of Art & Design Act in 2002. It is dedicated to providing post-secondary education to professional artists and designers.

The University receives financial support from the Ontario College of Art & Design Foundation [the "Foundation"], whose accounts are not consolidated in these financial statements [note 12]. The principal objectives of the Foundation are to solicit, invest, receive and distribute monies and other property to support education and research at the University.

The University is a charitable organization and, as such, is exempt from income taxes under the Income Tax Act (Canada).

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles within the framework of the significant accounting policies summarized below:

**Change in accounting policies**

Effective May 1, 2007, the University adopted the recommendations of the Canadian Institute of Chartered Accountants ["CICA"] Section 3855: *Financial Instruments - Recognition and Measurement*, CICA 3861: *Financial Instruments - Disclosure and Presentation* and CICA 3865: *Hedges*. CICA 3855 establishes standards for recognizing and measuring financial instruments, including the accounting treatment for changes in fair value. As required by CICA 3855, investments are to be presented at fair value. In prior years, short-term investments were recorded at cost plus accrued income which approximated fair value. In accordance with CICA 3865, all derivatives are measured at fair value and included on the balance sheet. In prior years, no value was recorded on the balance sheet for contracts in a hedging relationship. Further, CICA 3855 requires that debt be recorded net of transaction costs related to the issuance of the debt. As permitted by CICA 3855, the University's other financial assets and liabilities continue to be presented at amortized cost.

The adoption of CICA 3855, 3861 and 3865 did not have a significant impact on the financial statements in the prior or current year, except for the recording of the value of derivative financial instruments on the balance sheet and reclassification of transaction costs related to the issuance of debt. As required by the transitional provisions of CICA 3855, the change in accounting policy was adopted, without restatement of the prior year's financial statements. The impact on the balance sheet as at May 1, 2007 of recording the derivative contracts at fair value was an increase in other liabilities and a decrease in unrestricted net assets of \$624,697.

**NOTES TO FINANCIAL STATEMENTS**

---

May 31, 2008

**Revenue recognition**

The University follows the deferral method of accounting for contributions, which include donations and government grants. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Donations are recorded on a cash basis since pledges are not legally enforceable claims. Contributions externally restricted for purposes other than endowments are deferred and recognized as revenue in the year in which the related expenses are recognized. Endowment contributions are recognized as direct increases in net assets in the year in which they are received. Tuition fees are recognized as revenue when courses are held. Ancillary revenue is recognized at point of sale or when the service has been provided.

**Cash and cash equivalents**

Cash and cash equivalents consist of cash on deposit and short-term investments with an original term to maturity of less than three months.

**Investments**

Publicly traded securities are valued based on the latest bid prices and pooled funds are valued based on reported unit values. Short-term securities are valued based on cost plus accrued income, which approximates fair value. Transaction costs are recorded on a settlement date basis and transaction costs are expensed as incurred.

**Derivative financial instruments**

Derivative financial instruments are contracts that require or provide the opportunity to exchange cash flows or payments determined by applying certain rates, indices or changes to notional contract amounts. The University uses an interest rate swap in order to manage interest rate exposure. This instrument has been designated as an effective hedge.

Hedges are documented at inception, detailing the particular risk management objective and the strategy for undertaking the hedge transaction. The documentation identifies the liability being hedged, the type of derivative used and how effectiveness is measured. The derivative must be highly effective in accomplishing the objective of offsetting changes in cash flows attributable to the risk being hedged both at inception and over the life of the hedge.

For derivatives in hedging relationships, the effective portion of the gain or loss is recorded as a direct increase (decrease) in net assets, and the ineffective portion, if any, is recognized in the statement of operations. Derivative transactions that do not qualify for hedge accounting are carried at fair value, with changes in value during the year recorded as income.

**NOTES TO FINANCIAL STATEMENTS**

---

May 31, 2008

**Supplies inventory**

Supplies inventory, which consists of goods held for resale, is recorded at the lower of cost and net realizable value.

**Capital assets**

Land is carried at cost. Purchased capital assets are carried at acquisition cost. Contributed capital assets are capitalized at fair market value at the date of contribution. Capital assets are amortized on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings	25 years
Equipment and furnishings	8 years
Computer equipment	5 years

Construction in progress comprises direct construction and other costs associated with the project including capitalized interest. Interest costs are capitalized during the construction period. No amortization is recorded until construction is substantially complete and the assets are ready for use.

**Employee future benefits**

Contributions to a defined contribution pension plan are expensed when due.

**Contributed materials and services**

Donors contribute an indeterminable amount of materials and services each year. Because of the difficulty of determining their fair value, contributed materials and services are not recognized in these financial statements.

**Use of estimates**

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

---

May 31, 2008

**Future changes in accounting policies**

The CICA has issued two new standards, CICA 3862: *Financial Instruments – Disclosures* and CICA 3863: *Financial Instruments – Presentation*, which enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks.

The CICA has also issued a new accounting standard, CICA 1535: *Capital Disclosures*, which requires the disclosure of qualitative and quantitative information that enables users of financial statements to evaluate the entity's objectives, policies and processes for managing capital.

In addition, the CICA has issued a new accounting standard, CICA 3031: *Inventories*, which requires additional disclosures and sets out new rules that may affect the valuation of inventories.

These changes in accounting policies, which will be adopted effective June 1, 2008 will only require additional disclosures in the financial statements, except for CICA 3031: *Inventories*. The impact of this section on the financial statements has not yet been determined.

**3. INVESTMENTS**

[a] Investments consist of the following:

	2008	2007

	<b>6,415,363</b>	<b>4,890,447</b>

[b] Investments classified as non-current are equal to the total of assets held for endowments, unspent deferred capital contributions and internally restricted net assets. To the extent that the total of investments exceeds this total, the difference is recorded as current assets. To the extent that the total of investments is less than this total, an amount of cash and cash equivalents is classified as long-term.

May 31, 2008

**6. DEFERRED CAPITAL CONTRIBUTIONS**

Deferred capital contributions represent the unamortized amount of donations and grants received for the purchase of capital assets. The amortization of deferred capital contributions is recorded as revenue in the statement of operations and changes in unrestricted net assets. The changes in the deferred capital contributions balance are as follows:

	2008 \$	2007 \$
<b>Balance, beginning of year</b>	<b>36,782,982</b>	37,568,711
Add contributions related to prior year capital purchases funded by long-term debt <i>[note 12]</i>	<b>950,172</b>	1,138,937

Less unspent capital contributions	<b>(3,218,825)</b>	(113,262)
<b>Contributions funding capital assets <i>[note 5[a]]</i></b>	<b>35,791,871</b>	34,538,061

**7. LONG-TERM DEBT**

[a] The University has a term reducing facility of \$21,218,000 [2007 - \$10,001,000] with interest payable at the bankers' acceptance rate plus a fee of 0.250% [2007 - 0.475%]. The loan is repayable in equal monthly payments. The term of the unsecured loan is 10 years from the date of the drawdown of October 1, 2007 with a 30-year amortization period.

[b] The University has in place an Interest Rate Swap Agreement [the "Agreement"], designated as a hedge of the long-term debt [the "Loan"], which will expire on February 1, 2037. Under the terms of the Agreement, the University agrees with the counterparty to exchange, at specified intervals and for a specified period, its floating interest for fixed interest of 5.15% calculated on the notional principal amount of the Loan. The use of the swap effectively enables the University to convert the floating rate interest obligations of the Loan into a fixed rate obligation and thus manage its exposure to interest rate risk. As at May 31, 2008 and 2007, this Agreement qualified as an effective hedge transaction.

As at May 31, 2008, the notional and fair values of the financial instrument are \$21,218,000 [2007 - \$10,001,000] and a loss of \$1,532,445 [2007 - \$624,697] respectively. As at May 31, 2008, the loss is included in other long-term liabilities.

**9. ONTARIO GOVERNMENT MATCHING PROGRAMS**

[a] The Foundation receives and records in its financial statements donations eligible for matching under Government of Ontario matching programs that provide funding for bursaries. The matching contributions from the Government, which are claimed by the University and received by them, are transferred to the Foundation where they are recorded in the Endowment Fund. In fiscal 2008, the University transferred matching grants of \$322,593 [2007 - \$1,078,513] to the Foundation. The receipt and transfer of the matching grants is not recorded in the University's statement of operations and changes in unrestricted net assets since these grants represent endowed funds.

Investment income is earned on the endowed funds held by the Foundation. An amount is made available for spending each year in accordance with the Foundation's policies. This amount is transferred to the University and these expendable funds, which are available for awards, are recorded in other deferred contributions on the balance sheet.

The Government requires the University to provide certain details of the endowed funds held by the Foundation and the expendable funds held by the University in connection with these matching programs. These details are provided in the financial statements of the University.

The Board of Governors of the University approved the transfer to the Foundation, effective June 1, 2006, of \$2,643,759 from endowment net assets related to Government of Ontario matching programs. A further transfer of \$108,239 [note 9[d]] was approved by the Board of Governors in fiscal 2008.

**10. LEASE COMMITMENTS**

The University has commitments for future minimum annual lease payments under operating leases as follows:

	\$
2009	189,555
2010	155,145
2011	127,359
2012	94,566
2013	79,718

**11. CONTINGENCIES**

In the normal course of its operations and in connection with the completion of capital projects, the University is subject to various claims. Where the potential liability is determinable, management believes that the ultimate disposition of the matters will not materially exceed the amounts recorded in the accounts. In other cases, the ultimate outcome of the claims cannot be determined at this time. Any additional losses related to claims will be recorded in the period during which the liability is determinable.

**12. ONTARIO COLLEGE OF ART & DESIGN FOUNDATION**

The Foundation, an organization with an independent Board of Directors, is a registered charity under the Income Tax Act (Canada) and serves as the major fund-raising body for the University. The accounts of the Foundation are not included in the accompanying financial statements. Funds from the Foundation are given to the University when approved by the Board of Directors of the Foundation. As at May 31, 2008, the total fund balances of the Foundation at market value were \$8,483,682 [2007 - \$8,284,297].

Donations to the Capital Fundraising Campaign are recorded as revenue of the Foundation. Proceeds and related investment income from the Capital Fundraising Campaign are transferred to the University as needed. During the year ended May 31, 2008, the Foundation transferred \$1,080,852 [2007 - \$1,338,587] from the Capital Fundraising Campaign to the University. These donations have been recorded as either deferred capital contributions [note 6] or general donations to the extent that they relate to the funding of campaign expenses.

May 31, 2008

In addition, the Foundation transferred \$256,015 [2007 - \$140,162] to the University for bursaries and scholarships, which is included in bursary and scholarship donations, and \$180,465 [2007 - \$61,711] for general operations included in general donations in the statement of operations and changes in unrestricted net assets.

Transactions with the Foundation are measured at the exchange amount which is the amount of consideration established and agreed to by the parties. Amounts due to/from the Foundation are non-interest bearing and due on demand.

**13. PENSION PLAN**

The Ontario College of Art & Design Pension Plan [the "Plan"] is a defined contribution plan. The University matches contributions made by members of the Plan and also contributes any further amounts which may be required to defray the administrative and operating expenses of the Plan. In 2008, contributions to the Plan included in the statement of operations and changes in unrestricted net assets totalled \$931,256 [2007 - \$831,371].

**14. FINANCIAL INSTRUMENTS**

The University is subject to credit risk with respect to its accounts receivable. It is subject to market and interest rate cash flow risks with respect to its investments and interest rate price risk with respect to its long-term debt.

**15. CANADIAN UNIVERSITIES RECIPROCAL EXCHANGE**

The University became a member of a reciprocal exchange of insurance risks in association with other Canadian universities on January 1, 2008. This self-insurance co-operative is named the Canadian Universities Reciprocal Exchange ["CURIE"] and involves a contractual agreement to share the insurable property and liability risks of member universities arising during the period of membership. As a consequence, the University will be eligible to receive its pro-rata share of any potential future surplus distribution and will share in any deficits generated by claims arising during the University's period of membership in CURIE.

**16. COMPARATIVE FINANCIAL STATEMENTS**

The comparative financial statements have been reclassified from statements previously presented to conform to the presentation of the 2008 financial statements.
