Course Codes

Codes begin with a four letter subject code followed by four digits. The first digit indicates the year level of the course. For example, *GRPH-2004* designates a specific *Graphic Design* course at the *2000 level*. Generally, students complete 1000 and 2000 level courses before 3000 and 4000 level courses.

Course Weight

- 0.5 credit courses typically meet three hours per week for a 12-week term.
- 1.0 credit courses typically meet six hours per week for a 12-week term.

Major Requirements - Course Options

Although a specific number of credits are required from each category, you may choose to take additional courses from these lists as open electives.

Sample 4 Year Plan & Helpful Planning Information (at the end of this package)

The program is structured so that it can be completed in four years, by a student taking 2.5 credits per term in the fall and winter terms (a limited number of courses are also offered in the spring/summer terms). The sample plan will help you plan your courses.

In addition to general planning tips and suggested pathways, the helpful planning information can include recommended courses for your program and tips on meeting prerequisites for electives you may want to take.

If you want to accelerate your program progression, are attending part time or with a reduced course load, and require planning support, please contact **Student Advising** at ocadu.ca/services/academic-advising.

Helpful Planning Information – Graphic Design

General Planning Tips:

- Ensure that you review the course descriptions and pre-requisites for all courses, so you plan properly from year to year. The designated ‘core’ studio courses only run once per academic year and are the pre-requisites for the next course in the sequence. *For example, GRPH-1001 Design Process 1 only runs in the fall term and is the pre-requisite for GRPH-1002 Design Process 2.*
- Be mindful of your workload each term. Most courses are 0.5 credit. The designated core studio courses and the final year Workshop 1 and 2 courses are double-weighted (eg. *GRPH-1001 Design Process 1 is 1.0 credit*) meaning they are equivalent to the workload of two courses. If you register for four courses and one of them is 1.0 credit it would be the equivalent of taking five courses in that term; this is the recommended course load, equivalent to 2.5 credits per term.
- You are required to take 6.0 to 7.0 credits of Arts & Science courses as part of your **Course Options** (in Categories A and D) and your **Arts & Science Requirements** (in Categories F, G, H, I and J). We recommend that you incorporate these into your schedule each term so that you do not put them off until the upper years. Students who have done this have realized too late how beneficial these courses could have been to their core studio classes had they taken them sooner.
- When choosing **Open Electives**, we recommend courses with the subject code of GRPH or GDES as many of these courses are a good fit with your area of focus within your Major or other design disciplines.
- Ensure you consult your Program Guide above and your My Progress page while planning. Students have thought they had the right mix of credits to graduate and then found they had to take a course or two in the summer or following their final year.

Planning for Fourth/Final Year:

- The university has made capstone projects optional. In Graphic Design the capstone project (often called “thesis”) is completed over a year in two courses: GRPH-4015 Graphic Design Workshop 1 (fall) and GRPH-4016 Graphic Design Workshop 2 (winter).
 - The pre-requisites for GRPH-4015 Graphic Design Workshop 1 are GRPH-3012 Research Methods for GD (in Category C) with a minimum grade of 60% and GRPH-3011(or GRPH-3018) Graphic Design 4 (in Open Electives) with a minimum grade of 60%. These pre-requisite courses are at the 3000 level and are typically taken in your third year of study.
 - GRPH-4015 with a minimum grade of 60% is the pre-requisite for GRPH-4016.
 - You must register for the same instructor’s section of GRPH-4015 and GRPH-4016 in both fall and winter. We strongly discourage that you take GRPH-4015 only as it is not designed as a stand-alone course.

Fourth Year Pathway Options – Considerations for Planning:

Workshop Option: GRPH-4015 Graphic Design Workshop 1 (fall) and GRPH-4016 Graphic Design Workshop 2 (winter)

Suitable for:

- Students who prefer self-sustained investigations for self-directed projects over the course of two terms (year-long study).
- Students who are interested in professional work that relies on more autonomous creative practices and processes.
- Students who are considering master's work in the future. A capstone project can help you prepare for the requirements of a master's program in design.

Non-Workshop Option: Upper year electives

Suitable for:

- Students whose prefer working with a variety of shorter and more projects over the course of a term.
- Students who are interested in further developing specific graphic design skills (ex. editorial, structural packaging) or other practices (ex. printmaking, painting).
- Students who work better with directed projects.
