

## **Your Program Requirements**

This program guide defines the 20.0 credits required for the Bachelor of Design (BDes) in Industrial Design, including Major requirements (specific courses and course options), Arts & Science requirements and open electives.

Of the 20.0 credits required, the following applies:

- No more than 6.0 credits may be at the 1000 level
- At least 5.0 credits must be at the 3000 level or higher, including at least 1.0 credit at the 4000 level or higher

## **Reading Your Program Guide**

### **Course Codes**

Codes begin with a four letter subject code followed by four digits. The first digit indicates the year level of the course. For example, *GRPH-2004* designates a specific *Graphic Design* course at the *2000 level*. Generally, students complete 1000 and 2000 level courses before 3000 and 4000 level courses.

### **Course Weight**

- 0.5 credit courses typically meet three hours per week for a 12-week term.
- 1.0 credit courses typically meet six hours per week for a 12-week term.

### **Major Requirements - Course Options**

Although a specific number of credits are required from each category, you may choose to take additional courses from these lists as open electives.

## **Sample 4 Year Plan & Helpful Planning Information (at the end of this package)**

The program is structured so that it can be completed in four years, by a student taking 2.5 credits per term in the fall and winter terms (a limited number of courses are also offered in the spring/summer terms). The sample plan will help you plan your courses.

In addition to general planning tips and suggested pathways, the helpful planning information can include recommended courses for your program and tips on meeting prerequisites for electives you may want to take.

If you want to accelerate your program progression, are attending part time or with a reduced course load, and require planning support, please contact **Student Advising** at [ocadu.ca/services/academic-advising](https://ocadu.ca/services/academic-advising).

## Helpful Planning Information – Industrial Design

### General Planning Tips:

- When choosing Open Electives, we recommend you consider the courses in the Option Categories as these courses are a good fit with your Major. If you take more courses than the minimum requirement to fulfill the Category, these courses will fulfill Open Electives.
- Ensure that you review the course description and pre-requisites for all courses, so you plan correctly from year to year.

### Planning for Fourth/Final Year:

- If you intend to pursue Industrial Design as a profession upon graduation, you are encouraged to take INDS-4006 ID Major Design Project 1 (in Category G/Open Electives) and INDS-4007 ID Major Design Project 2 (in Open Electives) in your final year of study.
  - The direct pre-requisites for INDS-4006 is INDS-3012 (in Specified Courses) with a minimum grade of 60 (or INDS-3008 and INDS-3004 each with a minimum grade of 60). Take these pre-requisite courses in your third year of study.
  - If you elect to take INDS-4006 in the fall term, you may elect to also take INDS-4007 in the winter term. The pre-requisite for INDS-4007 is INDS-4006 with a minimum grade of 60.
