

The **2017 Cultural Community Expo** is a unique opportunity provided to students by OCAD U's Centre for Emerging Artists & Designers. Through a series of guest panel discussion and experiential site visits to art studios, cultural organizations and production centres, the Cultural Community Expo highlights and demystifies potential future career paths for Fine Art students. By involving exemplary guests and OCAD U alum who embody a variety of successful choices in career direction, students will come away with a better understanding of how to make a living and sustain their personal art practice once they leave school, while at the same time remaining engaged in the cultural community, receiving mentorship, and gaining access to facilities and professional development opportunities.

In 2017, a focus will be placed on the tenants of 401 Richmond; a vital cultural hub in the heart of the city. The expo will intimately connect students to cultural organizations and practitioners, such as artist-run centres, festivals, production facilities, art-service organisations, co-working spaces, artists, designers, and recent OCAD U grads who are maintaining their professional practice. This access and opportunity to connect with organizations and individuals working within 401 Richmond will provide students with valuable insights into potential cultural career paths and means of sustaining one's practice after graduation.

On **March 3rd**, students in the Faculty of Art's Cross-Disciplinary Art Practice: Professional Practice course and Photography Thesis will take part in a series of conversations and site visits. A moderated panel discussion, followed by smaller breakout sessions will facilitate the sharing of personal insights on the afternoon's theme; the importance of community, facilities, place, and engagement.
